# Low Season Groups

This course is designed for groups of children (age 10-15) and teenagers (16-18). Particular emphasis is placed on encouraging students to speak in English and activate their passive knowledge of the language. We use a wide variety of English language teaching materials which are specifically designed for young English students, including project work.

Students are assessed on their level of English on their first day and placed in a class according to their age and level.

The course includes grammar, the four skills: reading, writing, speaking and listening and topic based language. There will also be the opportunity to study in the E-learning Centre. Accommodation is subject to availability and lessons may take place in the morning or afternoon. Students can choose to add one full day and one half day excursion per week for an additional £65 per week.
